

Member Support Programme

See how the Family Business Practice and Peter Roper can support you and your business

"It's through curiosity and looking at opportunities in new ways that we've always mapped our path."

Michael Dell

For much of 2020 and in unprecedented times we have concentrated on providing as much value and opportunity for both our members and guests as possible.

It's also been clear for some time that there is an appetite from our members for a **simple, cost-effective** and **desirable support programme**.

Plus, a desire to tap into my forty years of business development experience!

I have to confess I have spent many hours working out how we can create a programme that has **real benefit**, where I can provide **real accountability** for attendees, without being too unwieldy, too time consuming and frankly too expensive in these times.

Then a chance conversation with a couple of our members recently gave me the answer I was looking for and I believe we have cracked it... so for those of you who really want to get 2021 going and achieve what you set out to, this might just be for you...

But first ask yourself these two key questions:

Why this support programme?

Why would it be good for me?

Well in my experience it can be a lonely place running a business as, at the end of the day, you make all the decisions!

Ones that can have **fundamental consequences** for both you and those close to you.

The challenge is we don't know what we don't know! Sometimes we make decisions as we go along with little experience to back our thoughts, hoping for success.

Of course, there are many coaching programmes on the market, in fact there seems to be more every day and they are probably excellent. However, as far as I am aware no one offers a **SUPPORT PROGRAMME** which gives access potentially to many brains, not just one or two exceptional achievers and **uniquely guided of course by me!**

Don't get me wrong, one to one coaching can be exceptionally good I just think there is another way, another opportunity and one that doesn't have to cost the earth...

The first key

to this programme is you get personal coaching time PLUS as the Family Business Practice has such great members, access to many brains and years of experience we can call on!

So long as you have a proven process and commit to allocate the time to take advantage of this exciting opportunity, I am confident we can move both you and your business forward.

The second key

to this programme is that it is monthly.

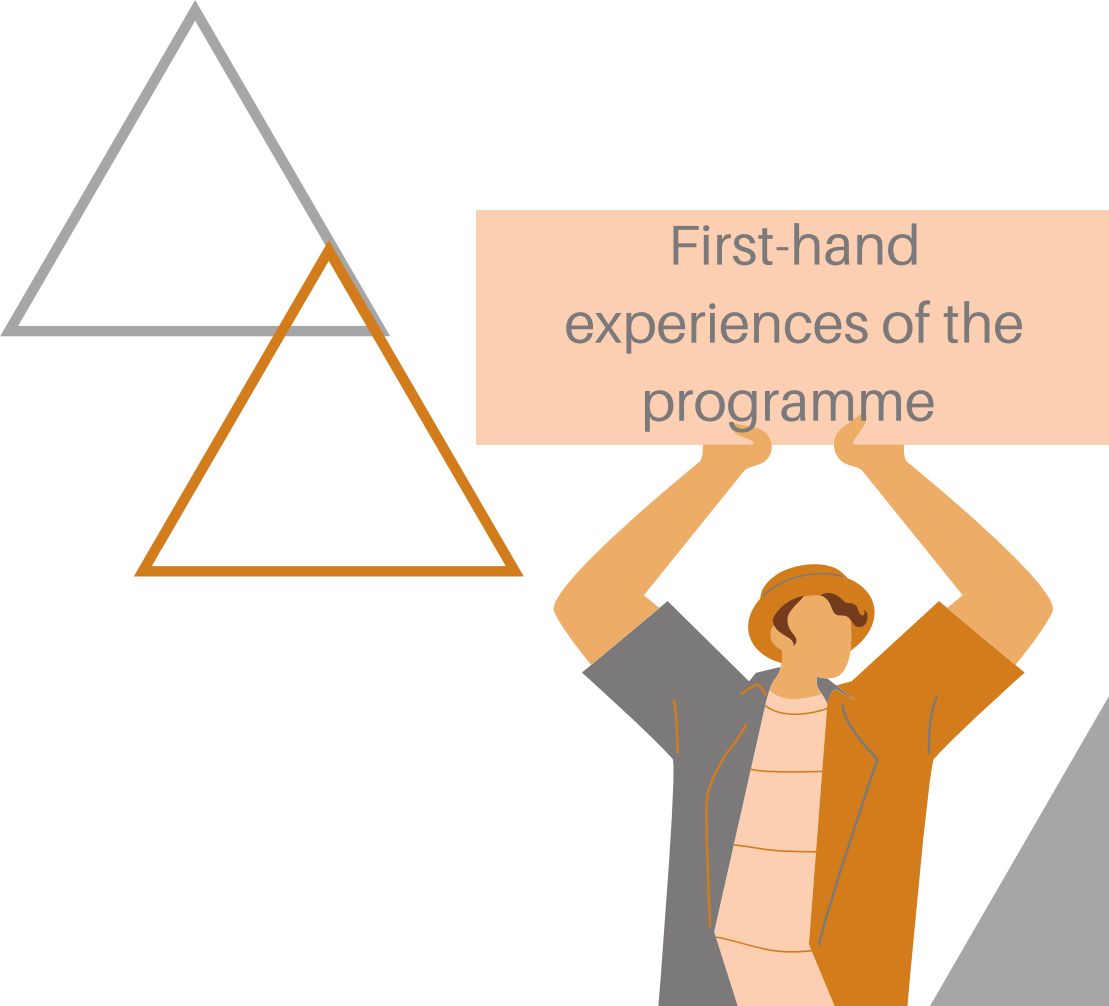

Many programmes operate on a 90-day format and quarterly review which is a well proven process.

But what happens for the 89 days until next time?

Again, experience is that all the commitments are achieved in the last handful of days - or is it just me?

Seriously, the advantage of this is that **a monthly track has a far better chance of success**, especially if coupled with a clear focus of what the future looks like.

First-hand
experiences of the
programme

*"The Practice Support Programme is a very welcome additional offering from the Family Business Practice. Based around **the sharing of expertise** from Peter and the participants and also on the premise that **a problem shared is a problem halved** it provides a **supportive and friendly forum** for small business owners to discuss issues, to learn from each other and to develop their business. This has been especially so this year with the general level of isolation that we are all experiencing but I would expect to have the same feeling of support from this programme in more normal times. I look forward to the monthly meeting and consider it a valuable use of my time!"*

Ian Jarvis, founder of Vertis Accounting

"Anything is possible when you have the right people supporting you"

- Misty Copeland

The bones of the Support Programme are provided in six significant ways, as follows:

1

An initial consultation with me to ascertain where most help will be needed for you and your business.

2

A further consultation thirty days later to cement the way forward.

3

A regular monthly zoom meeting with all programme delegates.

4

The content for these sessions will be a combination of a monthly update, hot seats for burning questions, presentations from members on specific issues and review of goals set for the following month.

5

Weekly support video.

6

Support of fellow members to keep you on track.

The Investment
(or more colloquially
known as how much??)

was to make this programme easy to access and at an affordable price.

The initial consultation fee with me is just £72 (This includes not one but two x 72-minute zoom calls 30 days apart) to create the roadmap for your journey within the Programme.

And **just £35 per month** thereafter.

There is the additional option of spending more personal time with me at just £72 per seventy-two-minute session at any time during the programme by prior arrangement.

The way forward...

Let me be blunt, you are getting me and the community for less than a mid priced sky sports package a year!

This is affordable, targeted, and risk-free as you can simply stop at any time (although our hope is that this becomes part of your long-term strategy).

Plus **being a part of a community of professionals...** ...and at a bonkers fee!

So, my question to you is simple.

Do you need someone to help you in your business, with good values, who wants you to succeed, to help you along the way and who has forty years of experience to guide you?

If so, I would be delighted and honoured to be that guide! To go ahead simply say yes please and we will fix the first meeting up!

A handwritten signature in black ink that reads "Peter".
